Education

University of Florida

B.S. IN SUSTAINABILITY AND THE BUILT ENVIRONMENT, B.A. IN STATISTICS

Gainesville, Florida

August 2024 - April 2028

- Cumulative GPA: 3.6.
- Completing coursework for the AI Certificate and LEED Green Associate Accreditation.

Research Experience

Engineering School of Sustainable Infrastructure and Environment - University of Florida

Gainesville, Florida

UNDERGRADUATE RESEARCHER

August 2026 - Present

- Research how the escalation of AI and data centers impact energy consumption and grid infrastructure for the Green Engineering Technologies for the Community of Tomorrow (GETCOT) Lab.
- Analyze public EIA datasets using Python to clean data and visualize trends in U.S. energy consumption.

Florida Climate Institute

Gainesville, Florida

STUDENT CLIMATE FELLOW

May 2026 - Present

- Investigate how housing type and tenure shape experiences with flooding and support for green stormwater infrastructure (GSI).
- Map GSI locations and flood-vulnerable locations using GIS datasets and shapefiles.
- Perform statistical analysis in R on a nationwide GSI dataset to compare flood experience across housing type.
- Produce an ArcGIS StoryMap to share findings with local organizations including the Gainesville Office of Resilience and Alachua Conservation Trust.

College of Design, Construction, and Planning - University of Florida

Gainesville, Florida

UNDERGRADUATE RESEARCH ASSISTANT

March 2026 - Present

- Analyze, clean, and interpret iMotions eye-tracking data about perceptions of green stormwater infrastructure using R.
- Organize and clean Qualtrics survey participant data for the People and Everyday Nature (PEN) Lab.
- Manage participant compensation and communication.
- Perform statistical tests (ANOVA, Kruskal-Wallis, and pairwise comparisons) in R to determine significance.

Work Experience

Moss and Associates

Ft. Pierce, Florida

PROJECT ENGINEER INTERN

May 2026 - August 2026

- Managed a large-scale 75 megawatt solar panel project.
- Organized delivery quantities and daily plans in Excel.
- Edited spatial data and map PDFs in Bluebeam.

Skills

Programming and Data Visualization: Proficient in R (packages such as sf, tidyverse, ggplot2, and dplyr), Python (packages such as pandas, matplotlib, and seaborn), SQL, MATLAB, and ArcGIS (spatial analysis and layer mapping).

Office Tools: Proficient in Microsoft Office tools such as Excel, Word, and PowerPoint.

Languages: English (native); Spanish (advanced verbal and written communication).

Certifications

Python Data Structures, University of Michigan

August 2026

SQL for Data Science, University of California, Davis

August 2026

Honors and Awards

Student Climate Fellowship, Florida Climate Institute, Research Grant

May 2026

Leadership and Service

The MedGap Awareness Project

Gainesville, Florida

CO-FOUNDER AND DIRECTOR OF RESEARCH

August 2025 - Present

- Research and write about health disparities in different medical fields.
- Lead appropriate research, content, and revisions teams of students to write about the social and cultural sustainability of health equity.

EcoGator

Gainesville, Florida

MEMBER

August 2025 - Present

- Spread awareness about environmental sustainability on campus at the University of Florida through tabling events and monthly meetings.

Green Building Club

Gainesville, Florida

TREASURER

March 2026 - Present

- Manage finances, dues, and fees in Excel.
- Promote the benefits of LEED certifications and green building strategies.
